

PASS THE COMPETITION

Accelerating Your Manufacturing Success

FASTLANE's team of specialized manufacturing and engineering consultants has more than 100 years of manufacturing experience, across a variety of functions, including multiple engineering disciplines. We provide an experienced outside perspective to your organization. Solving technical challenges, advancing technologies, and delivering innovative solutions to increase your competitive advantage.

We are a non-profit resource for manufacturers. Our team works directly with you to provide innovative solutions and identify strategies to help you increase sales, reduce costs, and grow your business.

As a Manufacturing Extension Partnership (MEP) affiliate serving the greater Dayton, Ohio region. We are managed by the Ohio Development Services Agency (ODSA) and are part of a State and Federal initiative sponsored by the U.S. Department of Commerce National Institute of Standards and Technology (NIST) in an effort to grow manufacturing within the U.S.

Strategically located within the University of Dayton's Research Institute (UDRI). Our connections provide direct access to over 500 world class experts including engineers, material experts, and world renowned testing resources.

FASTLANE's five focus areas include:

Technology Acceleration

We work with you to develop a customized process to accelerate short-term results and build a solid foundation to support future growth.

Continuous Improvement

Producing high quality products while reducing cost is crucial in manufacturing. We provide resources and training to help you operate lean and increase your bottom line.

Workforce Development

Access our in-depth knowledge of local businesses, clear industry insights, and partnerships with local educational providers to find, train, and retain your manufacturing workforce.

Supply Chain Optimization

We work with manufacturers, engineers and suppliers to stay informed of supplier and machine capabilities to connect you with local suppliers that deliver products and services faster, better and more economically.

Sustainability

We conduct research and find solutions to overcome sustainability hurdles, often reducing costs in the process.
