

QUALITY HEALTH CARE
IN GREATER SPRINGFIELD

Keeping our
COMMUNITY
feeling its
Best

When it came time to construct new modern medical facilities for Clark County, hospital leaders didn't hesitate. They set their sights on the community's center, its downtown.

BUILDING THE FUTURE BY GROWING THE PRESENT

SPRINGFIELD REGIONAL MEDICAL CENTER

QUALITY HEALTH CARE
IN THE HEART OF DOWNTOWN

Since opening its doors in November of 2011, the \$235 million state-of-the-art Springfield Regional Medical Center has provided the benefits of a modern, full-service hospital, providing 24/7 care not only to Springfield and Clark County, but adjacent communities. Its affiliation with Catholic Health Partners of Cincinnati makes Springfield Regional Medical Center a part of one of the strongest existing health care systems in Ohio — one expected to grow stronger as it becomes one of the largest players in the future of health care in the state.

13,500

The number of patients Rocking Horse Community Health Center serves on more than 56,000 visits a year.

SPRINGFIELD REGIONAL CANCER CENTER

CANCER CARE
CLOSE TO HOME

Adjacent to the new hospital, the Springfield Regional Cancer Center provides the latest in cancer care for most people in their own community, while providing access to a full array of clinical trials in partnership with the James Cancer Center, affiliated with The Ohio State University's Wexner Medical Center.

OHIO VALLEY SURGICAL HOSPITAL

SURGEON OWNED,
PATIENT APPROVED

A stone's throw from Springfield Regional Medical Center is a unique asset to the community, Ohio Valley Surgical Hospital. Founded by local physicians, it's a facility that is not only recommended to others by 99 percent of its patients, but also has added specialty services including ortho-spine surgery, hip surgery and rehabilitation services that make it possible for people to have the highest quality care without leaving their own community.

99%

of Ohio Valley Surgical Hospital's patients recommend it to others.

COORDINATING YOUR HEALTH CARE
DOCTORS AND DATA

Many of Springfield's family practices are leading the way into the future of healthcare. Through the Comprehensive Primary Care Initiative, the Springfield Center for Family Medicine and the Springfield Health Care Center are exploring the best way to track patients — from ER visits to hospitalizations to rehabilitation and back home with the smoothest handoffs possible, minimizing relapses and readmissions. It's not the family doctor coming to the door again, but it is a friendly voice on the phone making appointments, providing reminders and troubleshooting to keep us healthy.

INVESTING IN GOOD HEALTH

NOVEMBER 2011
 Springfield Regional Medical Center opened its

\$235 million
 facility.

JUNE 2013
 Mental Health Services opened its

\$10 million
 facility.

Quality Health Care for All

GREATER SPRINGFIELD OFFERS A WIDE SPECTRUM OF HEALTH CARE OPTIONS FOR PEOPLE IN ANY CIRCUMSTANCE OF LIFE SO THAT EACH PERSON MAY FIND THE CARE THEY NEED CLOSE TO HOME.

MENTAL HEALTH SERVICES

A FULL SPECTRUM OF CARE

Mental Health Services of Clark County opened its \$10 million facility just across the street from Springfield Regional Medical Center in June 2013. With inpatient, outpatient, emergency and transition services, it also works cooperatively with the Springfield-based Mental Health and Recovery Board of Clark, Greene and Madison counties to provide a full spectrum of care.

ROCKING HORSE COMMUNITY HEALTH CENTER

A MEDICAL HOME FOR EVERYONE

With its core belief that every person deserves a medical home, the Rocking Horse Community Health Center provides primary care services to residents of all ages, regardless of ability to pay. The center, located just east of the South Fountain Historic District, underwent an \$8 million, 42,000 square foot expansion to its campus in 2013.

WRIGHT PATTERSON MEDICAL CENTER AND DAYTON VA MEDICAL CENTER

NEARBY HEALTH SERVICES FOR VETERANS AND MILITARY PERSONNEL

Wright-Patterson Medical Center, located 17 miles southwest of Springfield at the Wright-Patterson Air Force Base, provides a complete range of services to eligible military beneficiaries in the region.

The Dayton VA Medical Center, 4100 West Third Street in Dayton, offers a full range of services to area veterans.

Springfield's Community Based Outpatient Clinic at 512 Burnett Road, offers home-based health care and outpatient mental health services for our veterans.

CLARK COUNTY COMBINED HEALTH DISTRICT

INTO THE FUTURE TOGETHER

Just as the nation is starting to focus on how managing chronic illness can both improve health and cut costs, the Clark County Combined Health District is leading the community into a healthier future. With its Community Health Assessment in hand, the district is coordinating a community-wide effort to improve the overall health of the community.
