

# INTERNSHIPS

EXPERIENCE TO BUILD YOUR FUTURE

Internships provide opportunities to experiment and pursue careers that match academic and personal interests. There are many benefits to completing an internship including the development of strong teamwork skills balanced with learning how to work independently. Opportunities exist for Clark County high schoolers and college students.

The CTC job placement program places students in internships or apprenticeships in as many programs as possible with local businesses. Many of these employers also partner with the CTC through the Advisory Committee for programs specific to their business. This allows the employer to share current industry trends and enables the CTC to train and prepare students to meet the most current industry needs.
